

Market wrap June 22, 2021

## Indian benchmark indices end in green after hitting record high; paper and paper products stocks rally..

- 1) The 30-share BSE Sensex hit a fresh record high of 53,057 level in early deals but erased gains to end at 52,589 levels, up 14 points or 0.03 per cent. On the NSE, the Nifty50 index ended at 15,773 levels, up 26 points or 0.17 per cent.
- 2) In the broader market, BSE SmallCap index ended 0.83 cent higher while the BSE MidCap index closed 0.33 per cent up.
- 3) The Nifty Auto index was up by 1.4 per cent. The Nifty Bank and Realty indices fell 0.3 per cent each.

Index	Today's Close	Prev. close	Change	% change	Open	High	Low
Sensex	52,588.71	52,574.46	14.25	0.03	52,885.04	53,057.11	52,520.55
Nifty	15,772.75	15,746.50	26.25	0.17	15,840.50	15,895.75	15,752.10

### Sectors and stocks

- 1) Shares of Indian Overseas Bank and Central Bank of India rallied by 16 per cent and 17 per cent, respectively in the intra-day trade today, after rallying 20 per cent each on Monday owing to privatisation buzz.
- 2) Shares of paper and paper products companies were in focus, rising up to 19 per cent in intra-day trade, on the BSE on Tuesday on expectation of higher demand. JK Paper rallied by 19 per cent to hit a 52-week high of Rs. 208.75 in intra-day trade today, on the back of three-fold jump in trading volumes. Thus far in the month of June, the stock has outperformed the market by gaining 31 per cent, as compared to 1.6 per cent rise in the S&P BSE Sensex. In the January-March quarter (Q4FY21), JK Paper reported a more-than-doubled consolidated net profit at Rs. 135.79 crore, as compared to Rs. 65.94 crore in Q3FY21. Net revenue from operations grew 20.5 per cent to Rs. 898 crore from Rs. 745 crore in the previous quarter. The company said that higher production and sales volume with improved realisation over the preceding quarter led to better performance. The revival of demand, which started in the third quarter (October-December), continued to gather momentum. While, the impact from second wave of Covid-19 is yet to be seen, the management said it expects some disruptions in the coming months.
- 3) Orient Paper & Industries, Seshasayee Paper & Boards, Andhra Paper, Astron Paper & Board Mill, West Coast Paper Mills and Ruchira Papers were up in the range of 5 per cent to 10 per cent. The paper & paper products industry is one of the worst affected industries due to the outbreak of Covid-19 pandemic. Closure of education institutions, adoption of work from home by offices, muted demand for printing of newspapers among others disturbed the consumption of paper & paper products. Moreover, subdued demand also had an impact on prices of paper & paper products which further affected the revenues of industry. With the ongoing vaccination program in India and with people now adapting to Covid-19 norms and environment, it is expected that the sales of paper & paper products industry will witness an uptick during the current financial year 2021-22 (FY22) on year on year (y-o-y) basis backed by better paper demand and increase in its prices. "The education institutions are likely to begin upcoming academic sessions (around June 2021) physically at least for higher class students if not for all the students. Physical study sessions for higher class students have been witnessed in the past few months as well. This is expected to result in better demand for papers like printing & writing and maplitho that find their usage in education institutions and offices. In addition to this, more employees are expected to work from office going forward," CARE Ratings said in March paper sector report.
- 4) Shares of NBCC (India) rallied 6 per cent to hit a 52-week high of Rs. 59.80 on the BSE in intra-day trade on Tuesday, gaining 10 per cent in the past two days, after the company awarded a work order for the construction of residential towers and civic amenities in New Delhi on transit oriented development (TOD) norms, engineering procurement and construction (EPC) mode to NCC at their quoted price of Rs. 859.84 crore. NBCC (India) provides civil engineering construction services. The firm operates through three segment viz., PMC, real estate development and engineering, procurement and construction (EPC). As of 31 March 2021, the government held 61.75 per cent stake in the company. In past two weeks, the stock of NBCC has rallied 20 per cent, as compared to a 1.2 per cent rise in the S&P BSE Sensex.

## Key recent major developments..

- 1) The direct tax collections for FY22, as on June 15, 2021 show that net collections are at Rs. 1.85 trillion as compared to Rs. 92,762 crore over the corresponding period of the preceding year, representing an increase of 100.4% over the collections of the preceding year. The net direct tax collections include Corporation Tax (CIT) at Rs. 74,356 crore (net of refund) and Personal Income Tax (PIT) including Security Transaction Tax (STT) at Rs. 1.11 trillion (net of refund), said Ministry of Finance on Wednesday. The gross collection of direct taxes (before adjusting for refunds) for FY22 stands at Rs. 2.16 trillion as compared to Rs. 1.37 trillion in the corresponding period of the preceding year. This includes Corporation Tax (CIT) at Rs. 96,923 crore and Personal Income Tax (PIT), including Security Transaction Tax (STT), at Rs. 1.19 trillion. Minor head wise collection comprises Advance Tax of Rs 28,780 crore, Tax Deducted at Source of Rs 1.56 trillion, Self-Assessment Tax of Rs. 15,343 crore; regular assessment tax of Rs 14,079 crore; dividend distribution tax of Rs 1,086 crore and tax under other minor heads of Rs. 491 crore. "Despite extremely challenging initial months of the new fiscal, the Advance Tax collections for the first quarter of the FY22 stand at Rs. 28,780 crore as against advance tax collections of Rs. 11,714 crore for the corresponding period of the immediately preceding financial year, showing a growth of approximately 146%. This comprises Corporation Tax (CIT) at Rs. 18,358 crore and Personal Income Tax (PIT) at Rs. 10,422 crore. This amount is expected to increase as further information is received from banks," the ministry said.
- 2) The Union Cabinet on Wednesday approved a Rs. 700 per bag hike in subsidy for DAP fertiliser and the increase will result in an additional cost of Rs. 14,775 crore to the exchequer. The hike is part of the government's effort to ensure that farmers gets the key soil nutrient at old rates despite rise in global prices. After urea, Di-ammonium Phosphate (DAP) fertiliser is the most widely one in the country. Last month, the Centre decided to increase subsidy on DAP fertiliser by 140 per cent. The decision was taken at a high-level meeting chaired by Prime Minister Narendra Modi. Briefing the media, Minister of State for Chemicals and Fertilisers Mansukh Mandaviya on Wednesday said the Cabinet has approved increasing the subsidy amount for DAP fertiliser for the benefits of farmers.
- 3) Wholesale inflation in the country touched a significant high of 12.94 percent in May, as the constant rise in cost of fuel, including petrol, LPG and high speed diesel percolated down into the economy and a low base effect pushed up figures. Measured by the Wholesale Price Index (WPI), wholesale inflation in India began FY22 with a major rise. It had already spiked in the previous month of April when it reached 10.94 percent, up from March's 7.39 percent, and February's 4.17 per cent. The pace of inflation has now accelerated for the fifth-month in a row.
- 4) India's retail inflation shot up to six-month high of 6.3 per cent in May, after easing to a three-month low of 4.23 per cent in April, according to the government data released on Monday. Inflation, based on Consumer Price Index (CPI), has breached the Reserve Bank of India's (RBI) target range for the first time after five months.
- 5) Industrial production grew by as much as 134.4 per cent in the month of April, mainly on account of a low base from last year, government data released on Friday showed. The government has held back the release of complete data of the Index of Industrial Production (IIP) for April, as was done for the same month last year due to the coronavirus lockdown. Factory output, as measured by the Index of Industrial Production (IIP), rose 22.4 per cent in March 2021 and had contracted by a massive 57.3 per cent in the April month last year as a coronavirus-induced lockdown froze economic activity. The Centre had on March 25, 2020 enforced a nationwide lockdown to curb the spread of coronavirus. However, industrial growth was flat in April if we compare the IIP to that in the same month of 2019. This indicates that the nascent economic recovery has been impacted by the second wave of the pandemic. Manufacturing sector output, which accounts for more than three-fourths of the entire index, registered a growth of 197.1 per cent as against a de-growth of (-) 66 per cent in the year-ago period.
- 6) A Finance Ministry report has said that faster vaccine coverage and frontloading of fiscal measures announced in this year's budget would be the major factors in boosting the investment and consumption cycles and, in turn, reviving the economy. The Monthly Economic Review for May, released by the Department of Economic Affairs (DEA) on Wednesday, noted that in the fourth quarter of FY21 growth in capex generated positive spillovers for consumption, including in the contact-sensitive sectors, these steps would facilitate recovery post the second wave. Further, a healthy monsoon forecasts bodes well for continued momentum in agricultural growth, it said. With state-level lockdown restrictions being more adaptive to learnings from the first wave, manufacturing and construction are expected to experience a softer economic shock in the current quarter, it said. "As we cautiously recuperate from the second wave, rapid vaccination and frontloading of the fiscal measures planned in the Union Budget hold key to invigorating the investment, and thereby consumption, cycle in the coming quarters," it said. It added that quickening the pace and coverage of vaccination is critical to help India heal and regain the momentum of economic recovery. The DEA noted that provisional GDP estimates available for January-March quarter (Q4) of FY 2020-21

confirm a V-shaped recovery in India's economic prospects in the second half of the year, after an unprecedented Covid-19 induced contraction.

- 7) Goods and Services Tax (GST) collections at over Rs 1.02 lakh crore in the month of May 2021. The monthly collection is 27 percent lower as compared to April 2021, when the GST revenue had peaked to a record-high of Rs 1.41 lakh crore. The gross revenue for the month of May, stated as Rs 1,02,709 crore, includes a collection of Rs 17,592 crore in form of CGST, Rs. 22,653 crore SGST and Rs. 53,199 crore IGST (including Rs. 26,002 crore collected on import of goods), said a statement issued by the Finance Ministry. The revenue collected through cess is Rs. 9,265 crore (including Rs. 868 crore collected on import of goods). "The above figure includes GST collection from domestic transactions till 4th of June since taxpayers were given various relief measures in the form of waiver/reduction in interest on delayed return filling for 15 days for the return filling month May'21 in the wake of Covid pandemic second wave," the government said.
- 8) The Reserve Bank of India (RBI) kept repo rate unchanged for the sixth consecutive time at 4 per cent and maintained the policy stance as Accommodative. The six-member monetary policy committee (MPC), however, revised the growth projection downward to 9.5 per cent from 10.5 per cent for the current financial year and revised the inflation projection upward to 5.1 per cent. "The MPC also decided unanimously to continue with the accommodative stance as long as necessary to revive and sustain growth on a durable basis and continue to mitigate the impact of COVID-19 on the economy, while ensuring that inflation remains within the target going forward," said RBI governor Shaktikanta Das while announcing the policy review decision.
- 9) Furthermore, RBI announced the third tranche of bond buying worth Rs. 40,000 crore under G-SAP 1.0. It also announced G-SAP 2.0, under which it will buy bonds worth Rs 1.2 trillion. The central bank will also buy bonds issued by state governments, unlike G-SAP 1.0 that was only for central government securities. Post the announcement, 10-year government bond yields hardened by 0.4 per cent to top 6 per cent-mark while the equity markets gave up their gains.
- 10) Moody's said it expects the damage to the economy from the second wave of Covid-19 and the ensuing lockdowns to be restricted to the April-June 2021 quarter. Taking the slowdown into account, it now expects India's GDP in the fiscal year ending March 2022 to grow at 9.3 per cent and at 7.9 per cent in FY23. According to global rating agency Fitch Solutions, the impact of the second Covid-19 wave on rated Indian firms is expected to be manageable, as most companies' credit profiles are supported by their strong market positions, adequate balance sheets, liquidity and diversified operations.
- 11) India's gross domestic product (GDP) grew at 1.6 per cent in the January-March quarter of fiscal year 2020-21, but witnessed a contraction of 7.3 per cent for the entire fiscal year, showed government data on Monday. This is the first full-year contraction in the Indian economy in the last four decades since 1979-80, when GDP had shrunk by 5.2 per cent. However, this is also the second straight quarter of expansion amidst COVID-19 crisis. India's GDP figures showed the growth at 3 per cent in Q4 of FY20, while growth for FY20 came at 4 per cent, an 11-year low. According to the National Statistical Office data, gross value added (GVA) growth in the manufacturing sector accelem rated to 6.9 per cent in the fourth quarter of 2020-21 compared to a contraction 4.2 per cent a year ago.
- 12) The Centre's fiscal deficit for the financial year 2020-21 settled at 9.2 per cent of the gross domestic product, marginally below the government's revised target of 9.5 per cent. This was on the back of better-than-expected revenue receipts with expenditure staying broadly at the level targeted in the revised estimates of the Budget. In absolute terms, India's fiscal deficit was Rs. 18.21 trillion, about Rs. 27,194 crore lower than the projected Rs. 18.48 trillion, as per the provisional estimates released by Controller General of Accounts. The fiscal deficit of 9.2 per centhas been estimated based on provisional estimates for FY21 GDP of Rs 197.46 trillion. The Centre had revisedits fiscal deficit target in the Budget from 3.5 per cent to 9.5 per cent due to increased expenditure on various schemes announced by the government to tide over the Covid-19 pandemic, and a sharp shortfall in revenue re-ceipts (both tax and non-tax).
- 13) Data released by IHS Markit showed that domestic factory orders and production slowed to a 10-month low in May as most states restricted businesses amid localised lockdowns. The Manufacturing PMI slipped to 50.8 in May against 55.5 in April, making it one of the steepest fall.

#### Global markets

- 1) Asian equities were upbeat today, Japan's Nikkei rallied by over 3 per cent, South Korea's Kospi was up by 0.7 per cent, and China's Shanghai Composite moved up by 0.8 per cent.
- 2) European equities were in red on concerns of rsising inflation which may lead tightening in global monetary policies. The pan-European STOXX 600 was down 0.1 per cent.

3) Meanwhile, Futures of all three main Wall Street indices indicated a flat-to-negative start later today Earlier, the U.S. economy added 559,000 jobs in May, vs estimate of 671,000 and revised 278,000 payrolls added in April. The unemployment rate fell to 5.8% from 6.1%, which was better than the estimate of 5.9%.

## Ajcon Global's observations and view

- 1) The overall sentiments continue to be good after strong vaccination drive yesterday with 86.16 lakh vaccine doses administered across the country on Monday (first day) of the revised guidelines for COVID-19 vaccination coming into effect which lifted investor sentiments. Last week, there were concerns about Fed's rate hike talks that had put some pressure on Sensex and Nifty. In the preceding four weeks of US Fed meet, the Indian indices had rallied about 8 per cent.
- 2) Positive factors like significant decline of COVID-19 cases in the second wave with recoveries surpassing new cases by a big margin on a daily basis, positive GDP figure, talks of US\$6 trillion stimulus package by Biden administration and strong Q4FY21 result by majority of the Companies with good management commentary for the future are supporting sentiments. In addition to liquidity provided by FPIs in equities, there is good spike in retail participation from Tier II and Tier III cities as people have become more financial literate in COVID-19 crisis.
- 3) Investors are also hopeful that vaccine shortages will be resolved in some months as vaccine manufacturers' ramp up supplies. The entry of new vaccines is also expected to ease the supply crunch. India has given the first dose of covid antidote to around 28.87 crores beneficiaries in the nationwide vaccination till date. According to a government official, two billion doses of Covid-19 vaccines will be made available in the country between August and December, enough to vaccinate the entire population.
- 4) Key domestic factors like good GST collections in May 2021 despite second wave of COVID-19, positive GDP data, good proposals presented in Union Budget 2021-22 will always keep bulls in the hunt for long term. Improved US GDP data, talks about US\$6 trillion package in US will also support bulls. The Nifty valuations are trading in the range of 35x-40x. Q4FY21 results season has been good so far led by SBI, Asian Paints, Reliance Industries, L&T, Hindustan Unilever, Bajaj Finserv, Bajaj Finance, Shriram Transport Finance, SAIL, Tata Steel, Tata Elxsi, Tata Coffee, UPL, Siemens, Bosch, Borosil Renewables, Orient Electric, Godrej Consumer Products, HDFC Life, SBI Cards, Castrol, Marico, Torrent Pharma, Birla Corp, Container Corporation of India, DCB Bank, Bank of Maharashtra, Dr. Lal Path Labs, Lux Industries, Indoco Remedies, Angel Broking, TCI, TCI Express, Shakti Pumps etc. No doubt Q4FY21 results have been strong and encouraging but the second wave of COVID-19 would impact Q1FY22 results to some extent.
- 5) It is advisable for investors to look out for stock specific opportunities. Investors will track global cues, ongoing monsoon, vaccination drive and economic activity and COVID-19 cases in Unlock phase.
