Market wrap

August 24, 2020

Buoyancy continues in Indian equities led by pick up in economic activity; caution warranted as valuations high with regards to earnings visibility and performance..

Indian benchmark indices continued to rally and ended around 1 per cent higher on Monday, led by buying in private banks, and finance stocks.

The S&P BSE Sensex was up by 364 points or 0.95 per cent to settle at 38,799 levels while NSE's Nifty ended at 11,466 points, up 95 points or 0.83 per cent.

HDFC Bank, ICICI Bank, HDFC, and Reliance Industries (RIL) were among the major contributors to the Sensex's gains while Power Grid, Mahindra & Mahindra (M&M), and Infosys were the major drags.

In the broader market, the S&P BSE MidCap index ended nearly 0.5 per cent higher at 15,019 levels while the S&P BSE SmallCap index outperformed the benchmark by surging nearly 1.6 per cent to 14,855.09 levels.

Among sectoral indices on the NSE, Nifty Private Bank index gained the most - up 2.45 per cent to 12,484.50 levels. Nifty Bank climbed 533 points or 2.39 per cent to 22,833 levels. On the flip side, Nifty Realty lost 1 per cent while Nifty IT index slipped 0.3 per cent.

Sectors and stocks

Private banks were leading from the front. IDFC First Bank jumped 6.7 per cent in the intra-day trade to hit a high of Rs 33 on the NSE. The rally came ahead of the AGR hearing in the Supreme Court. That apart, IndusInd Bank gained 4.2 per cent. Banking stocks such as SBI, Union Bank of India, HDFC Bank, Axis Bank and Federal Bank saw sharp upswing in the afternoon session on Monday, rising up to 5 per cent.

Eicher Motors was up by 10 per cent to Rs. 2,389 on the BSE after the stock turned ex-date for stock split in the ratio 1:10. The company has fixed August 25, 2020 as record date for the stock split. The stock ended flat at Rs 2,176.85.

Shares of The Phoenix Mills ended nearly 4 per cent higher at Rs. 724.60 per share on the BSE after the company raised Rs. 1,100 crore via its Qualified Institutional Placement (QIP).

Shares of Adani Group companies rallied on the bourses on media reports that the group is set to acquire a 74 per cent stake in Mumbai International Airport (MIAL).

Global markets

Global equities were up for a second straight session on Monday as hopes for a coronavirus treatment boosted risk assets and markets geared up for the US Federal Reserve's annual Jackson Hole meeting later in the week.

Europe's pan-regional STOXX 600 rose 1.3 per cent and the global benchmark added 0.4 per cent after US regulators authorised the use of blood plasma from recovered patients as a treatment option.

In Asia, MSCI's broadest index of Asia-Pacific shares ex-Japan jumped 0.8 per cent while Japan's Nikkei added 0.3 per cent.

Ajcon Global's view

We advise investors to exercise great caution while building fresh long positions at the present level. According to us, as COVID - 19 situation is getting bad to worse, the markets may see a major profit booking and selling bouts. No doubt, the economic activity has picked up but not at the same intensity of Pre - COVID era in different phases of Unlock period but the cashflow situation for MSMEs is still an issue. Presently, caution is warranted as Indian investors are not connected to ground realities of economic situation being tough which is evident by the fact that Companies are looking to raise capital via QIP, Rights issue, Preferential Allotment and FPOs to absorb the shock of COVID-19. Although there are relaxations in lockdown, exponential rise in COVID-19 cases can force for tighter lockdown. We believe Indian equities will take cues economic activity pickup during relaxations in Lockdown, escalating US- China, India - China tensions after banning of Chinese mobile apps; global cues especially the spike in COVID-19 cases across the globe in second wave, on ground domestic economic situation. However, selective Pharma, IT, Chemicals, Fertilisers, Low end consumer products Companies may be still looked at.

AJCON GLOBAL
YOUR FRIENDLY FINANCIAL ADVISOR

We believe cooling of Indian equities will be healthy for investors as the sharp rally in lockdown period and different phases of Unlock was led by liquidity through FPIs. Last 2 months rally can be attributed to positive developments related to COVID-19 vaccine, relaxations in Unlock 1.0, 2.0 and 3.0 and better than expected Q1FY21 result of majority companies announced so far. Exponential rise in COVID-19 cases amidst high recovery rate, US – China, India – China tensions would always remain an overhang on Indian equities. Equities rallying along with Gold make us uncomfortable as it is clear case of global liquidity as big economies have resorted to printing money as part of stimulus package. Progress of ongoing monsoon, global cues and management commentary in Q1FY21 earnings season will drive market direction. The FPI inflows came amidst rush of liquidity in the markets globally after central banks around the world announced stimulus measures to help their economies. The stimulus measures given by the G4 central banks such as the US Federal Reserve, Bank of England, European Central Bank, and Bank of Japan, have helped fill the global markets with liquidity, marquee Indian companies tapping the secondary stock market by raising funds also contributed towards the increase in FPI flows.

We like the measures announced by RBI in its Monetary Policy to address the issues faced by the Indian industry. The central bank announced measures to support NBFCs, HFCs, corporate debt market, and announced a relaxation on the loan-to-value (LTV) ratio for gold loans. RBI provided relief to stressed MSME borrowers by making them eligible for restructuring their debt under the existing framework, provided their accounts with the concerned lender were classified as standard as on March 1, 2020. This restructuring will have to be implemented by March 31, 2021. Further, the RBI introduced special resolution window under its June 29 circular. In addition, The Reserve Bank of India constituted the expert committee to oversee the resolution of stressed assets created by COVID-19 under the chairmanship of KV Kamath. The committee will recommend financial parameters factored in the resolution plans, along with sector specific benchmark ranges. The Expert Committee will undertake the process validation for the resolution plans to be implemented under this framework, without going into the commercial aspects, in respect of all accounts with aggregate exposure of Rs. 1,500 crore and above at the time of invocation. The "Prudential Framework on Resolution of Stressed Assets" dated June 7, 2019 provides a principle-based resolution framework for addressing borrower defaults under a normal scenario. "The resultant stress can potentially impact the long-term viability of a large number of firms, otherwise having a good track record under the existing promoters, due to their debt burden becoming disproportionate, relative to their cash flow generation abilities," RBI said.

The details regarding the policy for restructuring of NPA accounts is still awaited from the expert committee to oversee the resolution of stressed assets caused by COVID-19 under the chairmanship of KV Kamath. The guidelines on the KV Kamath committee recommendations will be out by September 6, Reserve Bank of India (RBI) Governor Shaktikanta Das said in a television interview on Friday. The committee on business loan resolution would submit its recommendations within one month and the central bank will soon release its final guidelines on the issue. Both the process will be done within 30 days from the date of original notification on August 6, Das said. We believe the restructuring measures announced by RBI will help PSUs to protect themselves from capital erosion as they are loaded with NPAs.

Going ahead, management commentary in Q1FY21 earnings season and newsflow related to COVID-19 will dictate market trend. Although some sectors have rallied in last 5 months, investors will keep an eye as to how far the sectors revive from a standstill scenario. The disappointment of no relief package for middle class who are also affected significantly in COVID-19 crisis will also remain an overhang. We like the agriculture reforms announced; major announcements made in sectors like Coal, Mining, Aviation, Defence and Power sector were also good and long term in nature. However, certain announcements by Finance Ministry were not taken well by street participants with regards to measures like MSME loan not being interest free, ambiguity with regards to MSMEs who do not have an existing credit facility, market sentiments getting affected as the reduction in rate of TDS to increase liquidity in the system were announced as part of stimulus package etc.

Considering the sharp rally in the last five months including the Lockdown period and various phases of Unlock – Reopening of economy, we advise investors to book profits who have entered at levels during the announcement of initial Lockdown.
