

Rally witnessed across the board; FMCG, Realty, Banking and NBFCs stocks rally..

Index	Today's Close	Prev. close	Change	% change	Open	High	Low
Sensex	55,464.39	54,647.33	817.06	1.50	56,242.47	56,242.47	54,982.82
Nifty	16,594.90	16,345.35	249.55	1.53	16,757.10	16,757.30	16,447.90

- 1) Indian equities continued to rally as crude oil prices and industrial metals like copper, aluminium and zinc prices witnessed cooling off from previous close. Sentiments have improved after Ukraine President Volodymyr Zelenskyy comments suggested that Ukraine is not keen now for NATO membership. Domestically, all eyes were on assembly elections result today and BJP's good performance in four of the five key state elections also uplifted investor sentiments.
- 2) The Sensex closed up by 817.06 points or 1.50 percent to end at levels of 55,464.39. The Sensex had touched a high of 56,242.47 and then erased 778 points from the day's high after the European markets started on a subdued note. On the other hand, the Nifty was up by 249.55 points or 1.53 percent to end at levels of 16,594.90. Among the Sensex 30 stocks, Hindustan Unilever Limited, Tata Steel, SBI, IndusInd Bank, Axis Bank, Bajaj Finserv, Nestle and Maruti Suzuki India were the gainers on Thursday rallying up to 5.17 per cent. On the other hand, Tech Mahindra, Dr Reddy's Laboratories and Tata Consultancy Services were the losers.
- 3) The broader markets were also upbeat today led by value buying. The BSE MidCap index and the BSE SmallCap index were up by 1 percent each.
- 4) FIIs sold equities worth Rs. 1,981.15 crore on Thursday. On the other hand, DIIs bought equities worth Rs. 945.71 crore. Month till date, FIIs sold equities worth Rs. 41,039.15 crore. On the other hand, DIIs bought equities worth Rs. 28,642.20 crore. In the month of February 2022, FIIs sold equities worth Rs. 45,720.07 crore. On the other hand, DIIs have bought equities worth Rs. 42,084.07 crore.

Sectors and stocks

- 1) Shares of non-banking finance companies (NBFCs) and housing finance companies (HFCs) are in focus as they rallied up to 6 per cent on the National Stock Exchange (NSE) in Thursday's intra-day trade, extending gains of their past two sessions on value buying. Axis Bank, Cholamandalam Investment and Finance Company, Bajaj Finserv, State Bank of India (SBI) and Mahindra & Mahindra Financial Services were up 5 per cent to 6 per cent. Bajaj Finance, ICICI Bank, HDFC Bank, Kotak Mahindra Bank and Housing Development Finance Corporation (HDFC) were up in the range of 3 per cent to 4 per cent.
- 2) Shares of Balrampur Chini Mills (BCML) hit a record high of Rs. 462, as they rallied 4 per cent on the BSE in Thursday's intra-day trade on strong business outlook. With a favourable mix of ethanol towards B-heavy/juice (feedstock) coupled with higher sugar realisations; operating margins of sugar companies are expected to improve. The stock of sweetener surpassed its previous high of Rs. 459.25 on January 20, 2022. In the past two weeks, the stock has rallied by 23 per cent, as against a 3.3 per cent rise on the S&P BSE Sensex. In the last three months, the stock has outperformed the market by rallying 37 per cent, as compared to 4.6 per cent decline on the benchmark index.

Key recent major developments..

- 1) Russian President Vladimir Putin said on Thursday that Western sanctions were illegitimate and Russia would calmly solve the problems arising from them. Addressing a government meeting, Putin also said Moscow - a major energy producer which supplies a third of Europe's gas - would continue to meet its contractual obligations. Speaking calmly, the Kremlin leader acknowledged that sanctions imposed since the start of what Russia calls its special military operation in Ukraine were being felt. "It is clear that at such moments people's demand for certain groups of goods always increases, but we have no doubt that we will solve all these problems while working in a calm fashion," he said. "Gradually, people will orient themselves, they will understand that there are simply no events that we cannot close off and solve." Speaking at the same meeting, Finance Minister Anton Siluanov said Russia had taken

measures to limit the outflow of capital and that the country would service its external debts in roubles. "Over the last two weeks Western countries have in essence waged an economic and financial war against Russia," he said. He said the West had defaulted on its obligations to Russia by freezing its gold and foreign currency reserves. It was trying to halt foreign trade, he said.

- 2) Crude oil prices rose on Thursday following a sharp drop in the previous session as the market contemplated whether major producers would boost supply to help plug the gap in output from Russia due to sanctions for its invasion of Ukraine. Brent crude futures were up \$3.10, or 2.8%, at \$114.24 a barrel at 0419 GMT after trading in a more than \$5 range. The benchmark contract slumped 13% in the previous session in its biggest one-day drop in nearly two years. U.S. West Texas Intermediate (WTI) crude futures were up \$1.58, or 1.5%, at \$110.28 a barrel, after trading in a more than \$4 range. The contract had tumbled 12.5% in the previous session in the biggest daily decline since November.
- 3) Domestically, retail investors have invested in Rs. 19,705 crore in equity-oriented mutual fund (MF) schemes in February, 2022. This was the 12th consecutive month of inflows into the equity category. The data from Association of Mutual Funds in India (Amfi) shows that all the 11 categories of equity funds recorded net inflows. Among the equity categories, flexicap and sectoral funds saw net inflows of Rs 3,873.56 crore and Rs 3,441 crore respectively. Inflows through the systematic investment plan (SIP) continued to remain strong at Rs 11,437.70 crore, only Rs 79 crore lower compared to January. Total assets under management of SIP fell to Rs 5.49 trillion in February as against Rs 5.76 trillion in January due to the correction in the market.
- 4) The European Union said on Wednesday it was stepping up sanctions over Russia's invasion of Ukraine, including targeting more Russian individuals and adding banks in Moscow's ally Belarus. The 27-nation bloc was blacklisting 160 more Russian parliamentarians and oligarchs, was banning exports of maritime navigation technology to Russia and was including crypto-assets under its punitive measures, European Commission President Ursula von der Leyen said. The EU was also targeting the banking sector in Belarus, where Russia has amassed troops it used to attack Ukraine.
- 5) Earlier, The International Monetary Fund warned Russia's war with Ukraine and the subsequent sanctions imposed upon President Vladimir Putin's country will have a "severe impact" on the global economy. "While the situation remains highly fluid and the outlook is subject to extraordinary uncertainty, the economic consequences are already very serious," the Washington-based lender said in a statement on Saturday. "Price shocks will have an impact worldwide, especially on poor households for whom food and fuel are a higher proportion of expenses," the IMF said. "Should the conflict escalate, the economic damage would be all the more devastating. The sanctions on Russia will also have a substantial impact on the global economy and financial markets, with significant spillovers to other countries." The Fund said central banks will need to "carefully monitor the pass-through of rising international prices to domestic inflation, to calibrate appropriate responses." Governments will need to find ways to support the most vulnerable households and help offset rising living costs. "This crisis will create complex policy trade-offs, further complicating the policy landscape as the world economy recovers from the pandemic crisis," the Fund said.
- 6) Earlier, Global financial services provider firm Moody's Analytics said "Global gas prices are expected to rise if any material and sustained escalation in the conflict between Russia and Ukraine puts constraints on Russia's gas exports." Russia is the world's largest exporter of gas. The majority of its gas exports stay in Europe, with Germany, Italy, Turkey, Austria and France the largest recipients, the consulting firm said adding nevertheless, Asia's largest economies - China, Japan, South Korea and India - all source some of their gas needs from Russia. Japan's largest supplier is Australia, but it also has long-term contracts with Russia, Malaysia, Qatar, and Brunei, the rating agency said. "And although there are other large global producers that could reroute supplies, it would take time to build infrastructure and increase liquefied natural gas processing capacity." In the meantime, however, global supplies would stay tight, it added.
- 7) Domestically, Gross Goods and Services Tax (GST) revenue collections in February (for sales in January) jumped by 17.6 per cent year-on-year to Rs. 1.33 lakh crore, data released by the Finance Ministry on Tuesday showed. This is the fifth consecutive month of GST collections being more than Rs. 1.30 lakh crore. The gross GST revenue collected in the month of February 2022 stood at Rs. 1,33,026 crore of which Central GST is Rs. 24,435 crore, State GST is Rs. 30,779 crore, Integrated GST is Rs. 67,471 crore (including Rs. 33,837 crore collected on import of goods) and cess is Rs. 10,340 crore (including Rs. 638 crore collected on import of goods).
- 8) Domestically, GDP growth rate for the October-December quarter of 2021-22 stood at 5.4 per cent as against 0.7 per cent growth in the corresponding period a year ago, with the construction sector recording a contraction of 2.8 per cent and manufacturing sector registering a meagre growth of 0.2 per cent. In its second advance estimates of national accounts, the National Statistical Office (NSO) has projected 8.9 per cent growth in 2021-22. In its first ad-

vance estimates released in January, it had projected 9.2 per cent growth for 2021-22 as against a contraction of 6.6 per cent in 2020-21.

Global markets

- 1) Asian peer indices ended in green on Thursday with Japan's Nikkei up by 4 percent and South Korea's Kospi up by 2.2 percent. China's Shanghai Composite, Hong Kong's Hang Seng were up by more than 1 percent each.
- 2) The US Labor Department's report showed consumer prices shot up 7.9 percent year-on-year, the sharpest annual spike in 40 years. Fed Chair Jerome Powell last week said he would back a quarter point rate increase when the U.S. central bank meets next week and would be "prepared to move more aggressively" later, if inflation does not abate as fast as expected.

Ajcon Global's observations and view

- 1) Indian equities were buoyant today after fall in crude oil and industrial metal prices. Sentiments have improved after Ukraine President Volodymyr Zelenskyy talk suggested that Ukraine was no longer insisting on NATO membership which has led to this war with Russia. Today, value buying was seen across the board as markets were in oversold terrain. Russia's invasion of Ukraine with full scale military attack on its key cities has created havoc in capital markets across the globe. The war has directly impacted crude oil prices which has rattled investors sentiments across the globe. Apart from war between Russia and Ukraine, there are strong headwinds like high crude oil prices and fears of US Fed hiking interest rates, fears of liquidity tightening and hawkish stance of global central banks amidst spike in global inflation and strong FII selling. All eyes on the likely repercussions of the ongoing war on global economy. We believe investors should be very selective and can gradually enter in quality stocks on pessimism in staggered manner.
- 2) It is advisable for investors to look out for stock specific opportunities considering growth outlook and management pedigree amidst the ongoing crisis. It would be advisable to avoid companies having exposure to Russia, Ukraine and Eastern European countries. Additionally, companies dependent on crude oil and crude oil derivatives will face significant margin pressure. Supply chain disruptions would also pose a challenge for companies and hence investors need to be careful in selection of stocks.
- 3) Always remember, steep corrections and crash in a structural bull market will keep markets healthy. Structurally, Indian economy is poised to do well after major reforms like thrust on digital economy after demonetisation, implementation of GST, RERA, Insolvency and Bankruptcy Code, reforms in power, one of its kind Union Budget announced last year which focused on investment led spending to drive growth with impetus on Privatisation, thrust on Aatmanirbhar Bharat resulting into Production Linked Incentive (PLI) schemes for various sectors, reforms in Direct Taxes, thrust on renewables sector, Ethanol blending, scrapping policy etc. India today has emerged as a potential destination for investment.
- 4) There is a strong line up of IPOs and focus would be on LIC IPO considering its scale. As per media reports, Finance Minister Nirmala Sitharaman's interview suggested that the FM may consider another look at the timing of Life Insurance Corporation of India IPO amidst Russia's invasion of Ukraine which has rattled financial markets. We suggest investors to be careful about the forthcoming IPOs and understand the fundamentals based on risk reward profile. No doubt, IPOs of sectors in limelight like E-Commerce, Insurance, companies engaged in Digital space, Speciality chemicals, Companies business model suited to new age, companies having business model which caters to the demands of Electric Vehicles would always gain maximum attention. However, investors need to be careful with expensive IPOs whose valuations are beyond logic. The carnage witnessed in some of the recently listed companies makes a case for investors to be more cautious.
- 5) Before the significant correction, the domestic sentiments were upbeat as in third wave of COVID-19 led by Omicron variant did not have a major impact on the economy. In addition, factors like good growth in merchandise exports, RBI's accommodative stance in its Monetary Policy, good GDP data, robust GST collections, PLI incentives in various sectors, strong vaccination drive, faster than expected economic recovery in Unlock phase, expectations of strong Q3FY22 earnings season, good Q2FY22 earnings season and management commentary, good economic activity witnessed in the festive season of Navratri, Diwali, Christmas, New Year and good spike in retail participation from Tier II and Tier III cities as people have become more financially literate in COVID-19 crisis. Domestically, positive factors like dovish stance of RBI in its Monetary policy, growth-oriented Union Budget presented by the Finance Minister (we believe the Budget is growth oriented with significant focus on capex. Emphasis is laid on Agriculture, MSMEs, Housing, Digital ecosystem, Defence, Electric Vehicles and Solar Power) and strong GST collections will support bulls. With Q3FY22 earnings season coming to an end, investors will now keenly track global cues like global inflation data (upcoming US and China inflation numbers) and crude oil price movement.

Disclaimer

Ajcon Global Services Limited is a fully integrated investment banking, merchant banking, corporate advisory, stock broking, commodity and currency broking. Ajcon Global Services Limited research analysts responsible for the preparation of the research report may interact with trading desk personnel, sales personnel and other parties for gathering, applying and interpreting information.

Ajcon Global Services Limited is a SEBI registered Research Analyst entity bearing registration Number INH000001170 under SEBI (Research Analysts) Regulations, 2014.

Individuals employed as research analyst by Ajcon Global Services Limited or their associates are not allowed to deal or trade in securities that the research analyst recommends within thirty days before and within five days after the publication of a research report as prescribed under SEBI Research Analyst Regulations.

Subject to the restrictions mentioned in above paragraph, We and our affiliates, officers, directors, employees and their relative may: (a) from time to time, have long or short positions acting as a principal in, and buy or sell the securities or derivatives thereof, of Company mentioned herein or (b) be engaged in any other transaction involving such securities and earn brokerage.

Ajcon Global Services Limited or its associates may have commercial transactions with the Company mentioned in the research report with respect to advisory services.
