

**Domestic bourses end in red; midcaps and smallcaps also decline..**

Index	Today's Close	Prev. close	Change	% change	Open	High	Low
<b>Sensex</b>	57,892.01	57,996.68	<b>104.67</b>	<b>0.18</b>	58,217.69	<b>58,346.00</b>	57,635.43
<b>Nifty</b>	17,304.60	17,322.20	<b>30.25</b>	<b>0.17</b>	17,396.55	<b>17,442.90</b>	17,235.85

- 1) Indian benchmark indices were lacklustre and ended in red today. Headwinds like Ukraine - Russia tensions and fears that US Fed soon start hiking interest rates have affected investor sentiments and capping gains for the moment. US Federal Reserve is likely to raise US interest rates in March and is also expected to end its bond purchase programme before going for significant reduction in its asset holdings.
- 2) The Sensex was down by 104.67 points or 0.18 percent to end at levels of 57,892.01. On the other hand, the Nifty was marginally down by 30.25 points or 0.17 percent to end at levels of 17,304.60.
- 3) The broader markets too ended in red. The BSE MidCap index and the BSE SmallCap index was down by 0.22 percent and 0.67 percent respectively.
- 4) Today, FIIs were net sellers and sold equities worth Rs. 1,242.10 Crore. On the other hand, DIIs were net buyers and bought equities worth Rs. 901.10 Crore. Month till date, FIIs have sold equities worth Rs. 19,398.12 Crore while DIIs in the same period have purchased equities worth Rs. 14,500.38 Crore.

**Sectors and stocks**

- 1) Shares of Adani Adani Green Energy (AGEL) were up by 8 per cent to hit a new high of Rs 2,094. The stock has rallied by 12 per cent in the past three trading days. AGEL has one of the world's largest renewable portfolios, and it develops, builds, owns, operates and maintains utility-scale grid-connected solar and wind farm projects. Key customers of AGEL include Solar Energy Corporation of India (SECI), National Thermal Power Corporation (NTPC) and various State Discoms.
- 2) Shares of Hero MotoCorp (HMCL) hit an over four-month high of Rs. 2,866, rising 3 per cent in Thursday's intra-day trade. The stock has rallied by 8 per cent in the past three trading days on the BSE ahead of the first electric product (EV) product launch, expected in March. The stock was trading at its highest level since October 20, 2021, and has recovered 24 per cent from its 52-week low of Rs 2,310.50 on December 20, 2021. It had hit a 52-week high of Rs. 3,628.55 on February 8, 2022.
- 3) Shares of FSN e-Commerce Ventures, the parent company of beauty e-tailer Nykaa, continued to remain under selling pressure, hitting a new low of Rs. 1,371.35, on slipping 9 per cent on the BSE in Thursday's intra-day trade. The stock of the cosmetics-to-fashion retailer declined by 34 per cent in the past one month. The stock has now corrected 47 per cent from its record high of Rs. 2,574 touched on November 26, 2021. The company had issued shares at a price of Rs. 1,125 per share in its initial public offer (IPO). Earnings before interest tax and depreciation and amortization (EBITDA) margin fell by 697 bps at 6.3 per cent from 13.2 per cent in Q3FY21. In Q3FY22, EBITDA margin improved by 302 bps from 3.3 per cent in Q2FY22. For the first nine months (April-December) of FY22, the Company's PAT registered a fall off 23 per cent on YoY basis to Rs. 33.7 crore. EBITDA margin declined 213 bps at 4.5 per cent from 6.6 per cent in same period of FY21. Revenue from operations, however, rose 65 per cent YoY at Rs 2,801 crore.
- 4) Shares of Indigo Paints made a new low of Rs 1,788.80, down 3 per cent in Thursday's intra-day trade. The stock has witnessed a fall of 8 per cent in one week after the company announced its December quarter (Q3FY22) results. In Q3FY22, the company's earnings before interest tax and depreciation and amortization (EBITDA) margin fell 45 bps at 14.57 per cent led by fall in gross margins, down 670 bps at 42.89 per cent, and higher A&P expenses. However, its revenue was up 26 percent growth in YoY basis led by decent volume growth in emulsions. Profit after tax witnessed a jump of 29 percent on YoY basis. and volume grew 16 per cent YoY in emulsions.

## Key recent major developments..

- 1) With the muted impact of the third wave of the pandemic on economic activity, the Indian economy may undergo an economic reset by end of the year, clocking 9 per cent growth in 2021-22 (FY22) and around 8 per cent in 2022-23 (FY23), the finance ministry said on Wednesday. "The Budget has targeted a nominal gross domestic product (GDP) growth rate of 11.1 per cent in FY23, with a GDP deflator of 3-3.5 per cent. The implied real growth component of around 8 per cent is close to the forecast in the Economic Survey of FY22, as well as 7.8 per cent projected by the monetary policy committee (MPC) of the Reserve Bank of India in its meeting of February," the finance ministry said in its latest monthly economic review. The report said the unchanged repo and reverse repo rate, along with the MPC's accommodative stance, prioritise growth during these uncertain times and reinforce the investment orientation of the Budget.
- 2) The Indian technology industry crossed the \$200 billion revenue mark, reaching \$227 billion revenue in FY22, witnessing a \$30 billion incremental revenue in the year with an overall growth rate of 15.5 per cent. Recording the highest ever growth since 2011 said Nasscom in its Strategic Review. The industry association is also confident that the industry can achieve the ambitious target of being a \$350 billion by FY26 growing at a rate of 11-14 per cent. Rekha M Menon, chairperson, NASSCOM said, "Fiscal 2022 has been a breakthrough year for the Indian technology industry. We've posted solid, broad-based growth, massively increased jobs, and are proud that we continue to be an engine for India's economic growth, and a beacon for inclusion and diversity. We are excited about the opportunities in the Techade as we enter an era of exponential transformation and technology becomes indispensable to progress. We remain committed to catalysing the trillion-dollar digital economy with our focus on talent, technology, collaboration, and innovation."
- 3) Domestically, India's exports in January rose 25.28 per cent to \$34.50 billion on account of healthy performance by mainly engineering, petroleum and gems and jewellery sectors, even as trade deficit widened to 17.43 billion, according to data released by the commerce ministry on Tuesday. Imports grew by 23.54 per cent to \$51.93 billion during the month under review. Trade deficit, difference between imports and exports, stood at \$14.499 in January 2021. Cumulatively, exports increased by 46.73 per cent to \$335.88 billion during April 2021-January 2022, from \$USD 228.92 billion in the corresponding period a year ago.
- 4) Auto industry body SIAM said Passenger vehicle dispatches from factories to dealers in India fell 8 per cent in January, mainly due to semiconductor shortage. The total passenger vehicle wholesales dropped to 2,54,287 units in January 2022 as compared to 2,76,554 units in the same month of last year. "Sales in January 2022 again declined compared to January 2021, due to both Omicron-related concerns and semiconductor shortage. There is clearly a demand issue for two-wheelers due to lower rural off-take of entry level models," Society of Indian Automobile Manufacturers (SIAM) Director General Rajesh Menon said. On the other hand, the passenger vehicle segment is unable to meet the market demand due to supply side challenges, he added. "Three wheelers continue to be severely affected due to lower sales," Menon said.
- 5) India's factory output growth decelerated to its lowest in 10 months at 0.4 percent in December as the third wave of the pandemic led to lockdowns across the country causing disruptions in economic activities. Data released by the statistics department showed manufacturing output contracted 0.1 per cent in December while mining and electricity grew at 2.6 per cent and 2.8 per cent, respectively. During the month, output of capital goods, consumer durables and consumer non-durables contracted while output of intermediate goods remained almost unchanged compared to their levels a year ago.
- 6) Earlier, Finance Minister Nirmala Sitharaman said banks have sanctioned loans worth Rs. 3.1 lakh crore under the Emergency Credit Line Guarantee Scheme (ECLGS) for the MSME sector that was impacted by disruptions due to the coronavirus pandemic. The scheme has been extended till March 2023.
- 7) According to Federation of Automobile Dealers Associations (FADA) Retail sales of auto manufacturers in the country declined by 10.70% in January 2022 as compared to the year-ago period. As per the data released by FADA, sales of three-wheeler and commercial vehicles (CVs) were up by 30 percent and 20.5 per cent respectively while sales of two-wheelers, passenger vehicles (PV), and tractors fell by 13 per cent, 10 per cent, and 10 per cent, respectively. According to FADA, the PV inventory at the end of January 2022 was at a 'historic low' of 8-10 days. On the other hand, the 2W inventory has come down to 25-30 days.
- 8) Globally, US Labour Department data showed that inflation soared over the past year at its highest rate in four decades reinforcing the Federal Reserve's decision to begin raising borrowing rates across the economy. The consumer price index rose 7.5% year over year in January, while the expectation was for an increase of 7.3%.

## **Ajcon Global's observations and view**

- 1) Indian benchmark indices ended in red. Media reports suggested that Russia is gradually withdrawing troops by Russia adjacent to Ukraine. It has to be seen that diplomatic efforts from Russia and Ukraine resolve the tensions or it escalates further. There are headwinds like rising crude oil prices and fears of US Fed hiking interest rates, fears of liquidity tightening and hawkish stance of global central banks amidst spike in global inflation, strong FII selling and India-China tensions.
- 2) It is advisable for investors to look out for stock specific opportunities considering growth outlook and management pedigree. Always remember, corrections in a bull market will keep markets healthy. Structurally, Indian equities are poised to do well after major reforms like thrust on digital economy after demonetisation, implementation of GST, RERA, Insolvency and Bankruptcy Code, reforms in power, one of its kind Union Budget announced last year which focused on investment led spending to drive growth with impetus on Privatisation, thrust on Aatmanirbhar Bharat resulting into Production Linked Incentive (PLI) schemes for various sectors, reforms in Direct Taxes, thrust on renewables sector, Ethanol blending, scrapping policy etc. India today has emerged as a potential destination for investment.
- 3) There is a strong line up of IPOs. We suggest investors to be careful about the forthcoming IPOs and understand the fundamentals based on risk reward profile. No doubt, IPOs of sectors in limelight like E-Commerce, Insurance, companies engaged in Digital space, Speciality chemicals, Companies business model suited to new age, companies having business model which caters to the demands of Electric Vehicles would always gain maximum attention. However, investors need to be careful with expensive IPOs whose valuations are beyond logic. The carnage witnessed in some of the recently listed companies makes a case for investors to be more cautious.
- 4) Before the correction, the sentiments were upbeat as in third wave of COVID-19 led by Omicron variant, death rates have been lower so far as compared to devastating Delta variant. Despite significant spike in COVID-19 cases on daily basis, the hospitalisation rates are also lower. The restrictions imposed too by various states so far are not a major dampener to economic activity. In addition, factors like good growth in merchandise exports, RBI's accommodative stance in its Monetary Policy, good GDP data, robust GST collections, strong manufacturing PMI, PLI incentives in various sectors, strong vaccination drive, faster than expected economic recovery in Unlock phase, expectations of strong Q3FY22 earnings season, good Q2FY22 earnings season and management commentary, good economic activity witnessed in the festive season of Navratri, Diwali, Christmas, New Year and good spike in retail participation from Tier II and Tier III cities as people have become more financial literate in COVID-19 crisis.
- 5) Positive factors dovish stance of RBI in its Monetary policy, growth-oriented Union Budget presented by the Finance Minister (we believe the Budget is growth oriented with significant focus on capex. Emphasis is laid on Agriculture, MSMEs, Housing, Digital ecosystem, Defence, Electric Vehicles and Solar Power), strong GST collections will support bulls. Investors will keenly track global cues, last leg of ongoing Q3FY22 earnings season with management commentary for the future, global inflation data, US Treasury yields and crude oil price movement. The ongoing assembly elections in Uttar Pradesh and upcoming assembly elections in Punjab, Uttarakhand, Goa and Manipur will also play in investors mind.
